For my debut project, I chose to write about my four childhood friends —Shambhavi, Anugya, Shivi, and Bhumika. Our shared experiences, adventures, and the deep bonds of friendship served as the perfect inspiration for the book. Writing about them felt like a tribute to our cherished memories, and I hope that through this book, others can relate to the magic of childhood friendships as well.

बिन ब्याहे की बहार

बिन ब्याहे जो रहते हैं, राजा वही कहलाते हैं,
कोई रोक-टोक नहीं, अपनी मर्जी से जी जाते हैं।
रातों को जागें, सुबह को सोएं,
चाय संग सपनों की दुनिया संजोएं।।

कपड़े बिखरे, बर्तन पड़े,
रूम साफ़ करना, हिम्मत कड़े!
मैगी हो या ब्रेड-जैम का सहारा,
बिन ब्याहे की रसोई, सादा प्यारा।।

महीने की सैलरी आते ही उड़े,
दोस्तों संग घूमने-फिरने को मुड़े।
फिल्में, गेम्स और क्रिकेट का जुनून,
कोई कहने वाला नहीं, "ये क्या है तेरा रूटीन?"

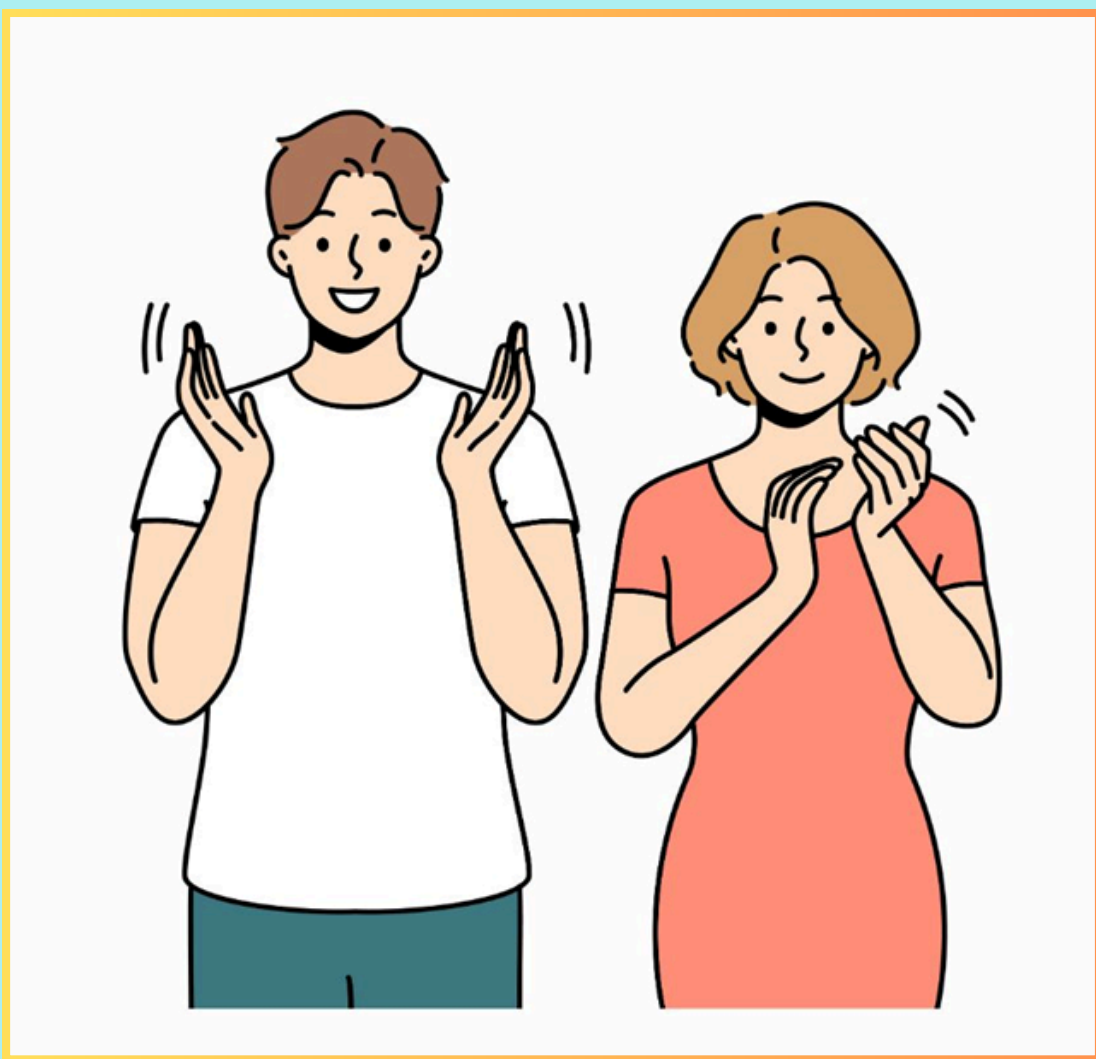

श्री गौरव जैन

पर जब अकेलापन दस्तक देता,
घर का खाना याद दिला देता।
माँ की रोटी, पापा की सीख,
तब बैचलर लाइफ लगती थोड़ी अजीब।।

फिर सोचें, अभी तो मज़ा लूटने दो,
ज़िम्मेदारियों से थोड़ी दूरी छूटने दो।
कल की कल देखेंगे जनाब,
अभी तो बैचलर लाइफ, "फुल ऑन नवाब!"

MY HERO – DR. APJ ABDUL KALAM

I would like to pen down about the greatest of all personalities whom I admire a lot, Dr APJ Abdul Kalam. I am sure that everyone admires the great missile man for his notable contributions to our nation. Dr Kalam has been a great motivation for me, and his entire life journey has played a very significant role in positively transforming my life. We all know that Dr. Kalam was an Indian scientist and a benevolent president from 2002 to 2007. His full name was Avul Pakir Jainulabden Abdul Kalam. Born on October 15, 1931, to a Muslim family, Dr. Kalam was a sharp student and an obedient child who helped his family earn their livelihood. He was born in Dhanushkodi located on the southeastern coast of India.

As a child, Dr. Kalam developed a mission to join aeronautics. The mission got stronger after he saw an article in the newspaper about a British fighter plane. His father's profession was to build and rent boats. Kalam was a very bright and hardworking student. After earning his degree at MIT, he joined the Defence Department of India. In 1998, he was given the title of Missile Man of India. He has developed many missiles and rockets. But unfortunately, he died due to cardiac arrest on July 27th, 2015. Even though he is not here he will always be my shining star and role model.

THE GREAT SOLDIER

Once upon a time, there lived a great king named- Chiranjeevi Bhanuveer along with his Queen - Ratnaprabha. One day, the king decided to go hunting. He asked his minister, Sher Singh, to arrange an army to go along with him. When the army was about to move, Ratnaprabha insisted the king take her with him. Bhanuveer told her about the dangers of the forest, but Ratnaprabha was adamant. The king had no other choice but to take the queen with him. When they entered the forest, they saw a lion coming towards them. The king asked the soldiers to kill the lion but the lion was very angry. It attacked Bhanuveer. One of the king's soldiers came to rescue him. Bhanuveer was impressed with the soldier. When they reached the palace the king asked about the soldier who saved him. But the minister said, "Your Majesty, the soldier asked me to permit him to stay there for some hours, and I agreed". Then the soldier came along with the lion and its cubs. The king was shocked to see him coming with the lion who attacked him. When asked, the soldier said - "Your Majesty, I was wandering in the forest to find the lion back when I saw these two little cubs running, roaring and playing. Then only I came to know that the lioness attacked only to save its cubs from the dangers caused by humans. I know that it looks awkward to be a human with animals, but the truth is that - we all were animals in the past and our ancestors were animals, too. Now I know that humans are evaluated and in the future, they will evaluate more but let us make a promise to save these animals. I have heard that you promised me to give everything I want. Well, I need money, but it is not my need as you will think nor do I want to become famous. I just want that in our kingdom no one will be allowed to go for hunting or shooting. As we need to save the animals". Bhanuveer was shocked and sorry for his actions. He promised to leave hunting and rewarded the soldier's honesty and care towards all the living things.

Moral- Yes, one should think about himself or herself but as humans, they should also think about others, whether they are animals or plants. Respect them and think they always give you even after getting so much pain from you.

A MEMORABLE TRIP TO AHMEDABAD

One day, I went to Ahmedabad with my school, and there were many things to enjoy. We stayed there for six days in a beautiful hotel. At night, we enjoyed a DJ party.

In the morning, we had our breakfast and got ready to go. We visited Science City, the Robotics Club, and several monuments. We enjoyed a lot and also met some resource persons. We clicked photos with our friends and teachers and had a great time.

This was the best trip of my life, and my school is the best school in the world!

A THRILLING EXPERIENCE AT GREENLAND WATER PARK

In 2024, our school organized a trip to Greenland Water Park for students from classes 6 to 12. In the morning, we reached school, and after some time, we left for our destination. It took us about half an hour to reach there.

Upon arrival, we entered the park and went to the changing rooms. After changing, we eagerly headed toward the various pool rides. One of the rides required us to climb up a set of stairs and slide down. A huge bucket of water poured down from above, which made the experience even more exciting.

After that, we moved to a big pool where we enjoyed many more rides. We spent more than an hour there, having a great time. Next, we went to the wave pool, where large waves pushed us back. We kept moving forward, only to be pushed back again by the waves. At one point, I stood near the wall of the wave pool, where another bucket of water was positioned above. Suddenly, as the bucket emptied and a large wave hit at the same time, I lost balance and momentarily went underwater. It was a scary experience, but I quickly grabbed the wall and stood up.

After a long time in the pool, we finally came out, changed our clothes, and had lunch. During dispersal, we were also given an ice cream cup with a spoon, which was a delightful surprise. Then, we boarded our buses according to our classes and headed back to school. From there, we took our route buses and reached home safely.

It was truly a wonderful day!

A MEMORABLE SCHOOL TRIP

A school trip is always a moment of joy, excitement, unity, and endless fun. One of the most exciting trips for me was our visit to Greenland Water Park. It was a fantastic and unforgettable experience.

The park had numerous thrilling slides, exciting rides, and incredible wave pools. My mind was filled with joy, and my heart raced with excitement as I enjoyed each moment. I truly had the time of my life on this trip!

Buckets of water splashing all around, and songs playing in my mind—whenever I remember that trip, it fills me with happiness. Words fall short when I try to describe the fun we had. It was simply the best!

Spending time with my friends, teachers, classmates, and fellow Presidensians made it even more special. With excitement in our hearts and joy on our faces, we made countless memories together. I believe this was the best trip ever—a perfect mix of fun, laughter, and friendship.

This experience will always stay fresh in my mind. Just like flowing water, my thoughts echo the words:

"So much fun, with endless waves and giant rings!"

I will always cherish this trip and never forget it for a moment.

MY FIRST SCHOOL EXCURSION

On December 30th, 2024, I went on my school excursion and visited Bhanwar Singh Palace in Pushkar. We enjoyed playing games and participated in antakshari with our friends and teachers during the journey. As soon as we reached our destination, we were welcomed with drinks. After some time, we played cricket and football, enjoyed swinging in the garden, and then took a rest.

In the evening, we visited the Brahma Temple and Pushkar Ghat, exploring the Pushkar market along the way. We even went camel riding! Later that evening, we returned to the resort, enjoyed a campfire with friends and danced a lot. After having dinner, we went to bed.

The next day, we visited the Savitri Mata Temple via the ropeway. After breakfast, we returned to the resort, packed our bags and rested for a bit. Then we had lunch. After some time, we went to Ajmer and visited the Seven Wonders. Finally, we made our way home. This trip was very memorable for me and I will never forget this excursion in my life.

COURAGE

Let's talk about courage. Courage is the strength to face fear, challenges, or difficulties.

Think about the moment when you ask a question in class, and the teacher responds with, "I just explained this." That surge of panic? Mustering the bravery to ask the same question anyway is an example of courage.

Then there's the bravery involved when you do homework in the school bus, hoping the teacher won't notice your "extra artistic" handwriting. The next day, you resolve to improve your handwriting and approach it more thoughtfully.

And let's not forget the ultimate test of courage: telling Mom that you lost your lunchbox... again. Even superheroes would hesitate before doing that! But after seeing Mom's furious expression, you promise yourself that you will never let it happen again.

At the end of the day, courage helps us grow and inspire those around us. So, let us all be courageous and face life's challenges with brave hearts, just like the students who navigate school with confidence. Remember, courage isn't just about being fearless—it's about surviving with confidence, quick thinking, and a solid excuse.

रास्ते

घर से निकलते ही मिलते हैं रास्ते, अपनापन सा हमसे जताते है रास्ते। दिन भर यहां वहां घूमते घूमते, फिर वापस से घर भी पहुंचाते हैं रास्ते।

कुछ उबड़ खाबड़ कुछ टेढ़े मेढ़े कुछ बच्चों के जैसे शरारती रास्ते, हर मौसम में भी खूब चमकते गोरी के गालों से लुभाते रास्ते।

नानी के घर को बुआ के घर को सब को खूब पहचानते हैं रास्ते, इस मतलब भरी दुनिया में हर एक घर को जोड़ें रहते हैं रास्ते।

इन्ही रास्तो से चलकर हम बचपन खो कर जवान हुए, मिले कभी इनसे जब आंखों से आंसू बरसाते। दिलखोल कर जब रोना चाहे बोले ये इठलाकर, आगे बढ़ते जा राही, जीवन में हंसते मुस्कुराते।

ये रास्ते भी हमारी तरह अपनी रीति निभाते हैं, कभी ऊँचाई तक बढ़ते कभी नीचे तक लुढ़क जाते हैं।

हर दिल में प्रेम का गीत सजाएं।

आंसू को मुस्कान में बदल दें।
छोटी-छोटी खुशियाँ देकर,
दुखों का हम साया मिटा दें।

सबमें ईश्वर का रूप सजा।
स्नेह के धागे से जोड़ें दिल,

स्कूल

स्कूल है वो जगह,
जहां सपने साकार होते हैं,
जहां मन के गहरे विचार
उजागर होते हैं।
यहां हम सीखते हैं
न केवल किताबों से,
बल्कि जीवन के अनमोल
सबक भी मिलते हैं।
दोस्तों का संग और टीचर की बातें,
हर दिन कुछ नया सिखाते हैं रास्ते।
यहां पर मेहनत से सफलता मिलती है,
आत्मविश्वास बढ़ता है और नई दिशा मिलती है।
स्कूल न केवल ज्ञान का संसार है,
यहां हर बच्चा खुद में एक सितारा है।
यही वो जगह है, जहां बनते हैं सपने,
जो हमें आगे बढ़ने की ताकत देते हैं हर कदम

BOOK *Review*

WINTER OF THE ICE WIZARD

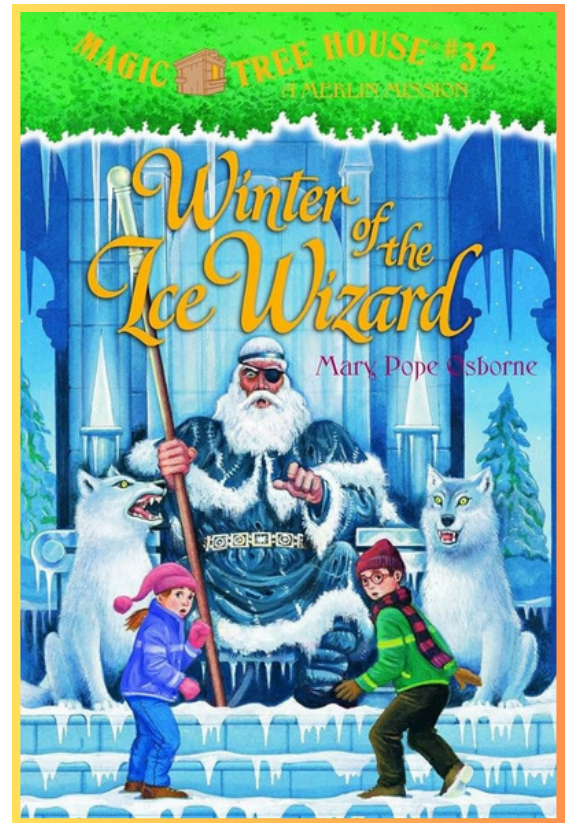

BY MARY POPE OSBORNE

**Josha Tak
IX**

The story combines the themes of bravery, friendship and cooperation. It tells the story of two siblings named Jack and Annie. They two have to save their magical friends Merlin, the Magician and Morgan le Fay. Merlin and Morgan have disappeared into Snow and Jack and Annie must enter a blizzard-like race against time.

Jack and Annie met up with their friends Teddy and Kathleen to find them to go on this mission. The book is fantastic because of all the mysteries that Jack, Annie, Kathleen and Teddy have to solve. I also like how the Swan Maiden and the Ice Wizard reunited.

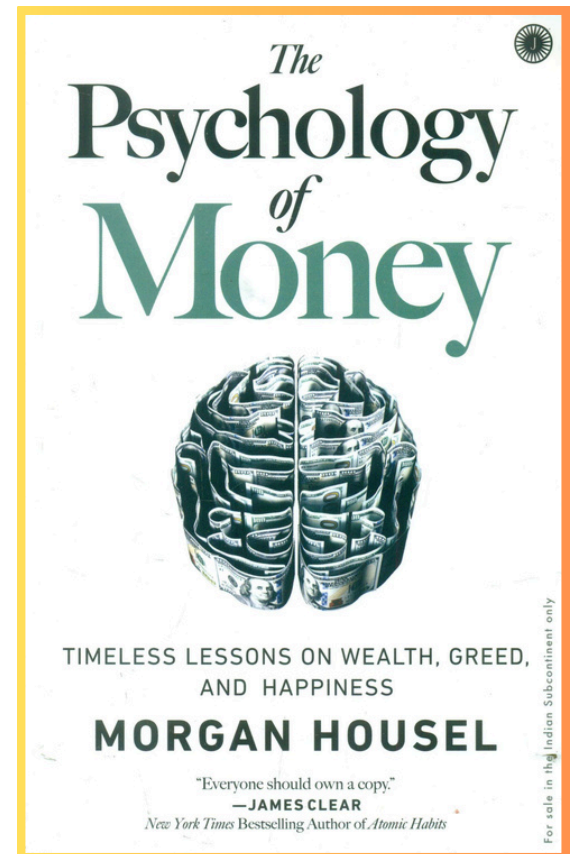

THE PSYCHOLOGY OF MONEY

BY MORGAN HOUSEL

Siddharth Kothari
IX

In the book “Psychology of Money” Morgan Housel takes the readers through the study of emotions, ideas and events that impact their actions regarding finances. The author attempts to explain that the financial aspects are important but the man’s behaviour is also very important. The way he thinks. Such themes carry the significance of patience, error avoidance, appreciating the role, chance, danger and an objective view on wealth as what a person possesses rather than what he/ she earns. Housel also asserts that it is fundamental to control our thoughts, beliefs and emotions regarding money. If we want to have positive financial outcomes.

I have read a book called “The Invisible Man” in our school library. This book is about a scientist who performs an experiment in which he makes a formula which makes him invisible throughout his life.

He helped cops to find a murderer. This book is a type of science fiction. Earlier I didn’t like science fiction books. But after reading this book I found science fictions very interesting. According to me, it has a bit of information related to science. This book is captivating, filled with what will happen next.

19 फरवरी

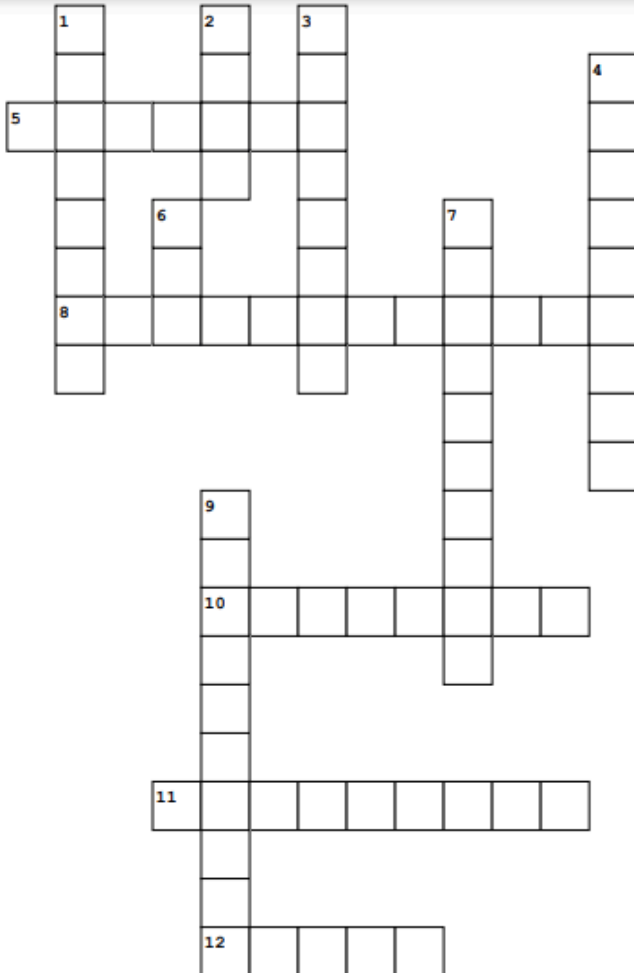

छत्रपति शिवाजी महाराज की जयंती मनाने की शुरुआत वर्ष 1870 में पुणे में महात्मा ज्योतिराव फुले द्वारा की गई थी। उन्होंने ही पुणे से लगभग 100 किलोमीटर दूर रायगढ़ में शिवाजी महाराज की समाधि की खोज की थी। बाद में स्वतंत्रता सेनानी बाल गंगाधर तिलक ने जयंती मनाने की परंपरा को आगे बढ़ाया और उनके योगदान पर प्रकाश डालते हुए शिवाजी महाराज की छवि को और भी लोकप्रिय बनाया। उन्होंने ही ब्रिटिश शासन के खिलाफ खड़े होकर शिवाजी महाराज जयंती के माध्यम से स्वतंत्रता आंदोलन के दौरान लोगों को एक साथ लाने में अहम भूमिका निभाई थी। उनका वीरता और योगदान हमेशा लोगों को हिम्मत देता रहेगा इसीलिए हर साल यह जयंती मनाई जाती है।
